## FESTIVALINFO

"Occasionally you find a band which - with a mix of influences and huge variety in style - stops you from giving up on music... Thin Line Men, 5 guys from Ostend (Belgium), are of this calibre. Thin Line Men allow you to revisit an enjoyable and once common experience: listening to an entire rock album from opening chord to the very last note..."

## RAMUSIC

"Thin Line Men kept us waiting for their debut album. But the title 'Out On The Tiles' explains it all. These guys were way too busy 'hanging out', out on the tiles that is! After releasing their 4th single they have finally presented their first album. Are there any good songs on it? Hell yeah!!!"

## MPODIA

"It is hard to label the music that this band creates, they should not be underestimated. The sound of Thin Line Men is energetic and comes with international appeal... Thin Line Men take you along on their musical journey..."

## EKAYA

"Out On The Tiles is an album of quality and technique with a dark and balanced rock sound. Thin Line Men have matured as a band and have delivered a marvelous debut album."

**HUMO** "THEY'RE ON THE MAP OF THE BEST BRITISH DRUG MUSIC, SOMEWHERE BETWEEN THE ROLLING STONES AND THE STONE ROSES..."

“ ...the new album from Thin Line Men is real artistry. This band from Ostend keeps writing radio-worthy singles, with a ‘Madchester’ vibe and psychedelic rhythms. ”

**IndieStyle** Thin Line Men take us on a psychedelic trip from Ostend to the North of England. Not through the channel tunnel, but on a flight over the North Sea. Madchester? Forget it! Thin Line Men have made Ostend the Queen of this music genre. This album was worth the wait...
